

STATION CENTER

MIXED-USE, TRANSIT-ORIENTED FAMILY HOUSING

Union City, CA

Station Center is at the heart of the City of Union City's vision to create the Station District, a vibrant city center bustling with attractive store fronts, community parks and high-quality housing. In the Station District people of all income levels live, work, shop and play near public transportation and jobs. This is smart growth at its best.

Designed by award-winning architect David Baker + Partners, Station Center provides workforce housing in an innovative plan that attractively wraps apartment buildings around common areas to create an open feel. The main entrance, a towering open-arch, reveals a series of unique spaces where neighbors gather. There are gardens, playgrounds, a fitness facility, a pool and a community room for programs

and services for youth residents and adults. Station Center also includes 8,600 square feet of commercial space on the ground level. The community has achieved LEED Platinum Certification, and is the recipient of an Urban Land Institute Award for Excellence.

Nearby stores, restaurants, BART and bus lines help make the Station District a model for urban infill development.

Station Center | 348888 Eleventh Street, Union City, CA 94587
